Contents of Volume 9, 1997

Vol. 9 No. 1 1997

M.-H. Yang, G. Blunden, F.-L. Huang & R.L. Fletcher / Growth of a dissociated, filamentous stage of *Codium* species in laboratory culture 1–3
V.A. Gerard / Environmental stress during early development of kelp sporophytes (*Laminaria saccharina*): how long do effects persist? 5–9
G. Blunden, S.A. Campbell, J.R. Smith, M.D. Guiry, C.C. Hession & R.L. Griffin / Chemical and physical characterization of calcified red algal deposits known as maërl 11–17
K.M. McGinnis, T.A. Dempster & M.R. Sommerfeld / Characterization of the growth and lipid content of the diatom *Chaetoceros muelleri* 19–24
Ding-Mei Li & Yu-Zao Qi / *Spirulina* industry in China: Present status and future prospects 25–28
R. Matsukawa, Z. Dubinsky, E. Kishimoto, K. Masaki, Y. Masuda, T. Takeuchi, M. Chihara, Y. Yamamoto, E. Niki & I. Karube / A comparison of screening methods for antioxidant activity in seaweeds 29–35
L. Tomaselli, G. Boldrini & M.C. Margheri / Physiological behaviour of *Arthrospira (Spirulina) maxima* during acclimation to changes in irradiance 37–43
E. Moen, B. Larsen & K. Østgaard / Aerobic microbial degradation of alginate in *Laminaria hyperborea* stipes containing different levels of polyphenols 45–54
Qiqin Yin, W.W. Carmichael & W.R. Evans / Factors influencing growth and toxin production by cultures of the freshwater cyanobacterium *Lyngbya wollei* Farlow ex Gomont 55–63
Xiaozhi Zhang, Shanggeng Luo, Qun Yang, Huaili Zhang & Jinying Li / Accumulation of uranium at low concentration by the green alga *Scenedesmus obliquus* 34 65–71

Note
A. Chirapart, M. Ohno, H. Ukeda, M. Sawamura & H. Kusunose / Effects of partial acid hydrolysis on physical and chemical properties of agar from a newly reported Japanese agarophyte (*Gracilariopsis lemaneiformis*) 73–76

Book reviews 77–79
Patents 81–89
Instructions to Authors 91–98

Vol. 9 No. 2 1997

F.J.L. Gordillo, C. Jiménez, A. Corzo & F.X. Niell / Optimized nitrate reductase assay predicts the rate of nitrate utilization in the halotolerant microalga *Dunaliella viridis* 99–106
G. Chamorro, S. Salazar, L. Favila-Castillo, C. Steele & M. Salazar / Reproductive and peri- and postnatal evaluation of *Spirulina maxima* in mice 107–112
B. Pushparaj, E. Pelosi, M.R. Tredici, E. Pinzani & R. Materassi / An integrated culture system for outdoor production of microalgae and cyanobacteria 113–119
J.G. Day, M.M. Watanabe, G.J. Morris, R.A. Fleck & M.R. McLellan / Long-term viability of preserved eukaryotic algae 121–127
A.H. Buschmann, C.A. Retamales & C. Figueroa / Ceramialean epiphytism in an intertidal *Gracilaria chilensis* (Rhodophyta) bed in southern Chile 129–135
H. Guasch, I. Muñoz, N. Rosés & S. Sabater / Changes in atrazine toxicity throughout succession of stream periphyton communities 137–146

D.H. Zhang, Y.K. Lee, M.L. Ng & S.M. Phang / Composition and accumulation of secondary carotenoids in *Chlorococcum* sp. 147–155
E. Moen, S. Horn & K. Østgaard / Alginate degradation during anaerobic digestion of *Laminaria hyperborea* stipes 157–166
S. Kannaiyan, S.J. Aruna, S.M. P. Kumari & D.O. Hall / Immobilized cyanobacteria as a biofertilizer for rice crops 167–174
M. Notoya / Chloroplast changes and differentiation of callus cells in *Eckloniopsis radicosa* (Kjellman) Okamura (Phaeophyta, Laminariales) 175–178
B. Quemener, M. Lahaye & C. Bobin-Dubigeon / Sugar determination in ulvans by a chemical-enzymatic method coupled to high performance anion exchange chromatography 179–188
C.J. Zhu & Y.K. Lee / Determination of biomass dry weight of marine microalgae 189–194

Vol. 9 No. 3 1997

J.V. Rossi, M.A. Roberts, H.-D. Yoo & W.H. Gerwick / Pilot scale culture of the marine cyanobacterium *Lyngbya majuscula* for its pharmaceutically-useful natural metabolite curacin A 195–204
D. Fischer, U.G. Schlösser & P. Pohl / Exopolysaccharide production by cyanobacteria grown in closed photobioreactors and immobilized using white cotton towelling 205–213
F. Pérès, M. Coste, F. Ribeyre, M. Ricard & A. Boudou / Effects of methylmercury and inorganic mercury on periphytic diatom communities in freshwater indoor microcosms 215–227
J. Hall & G. Payne / Factors controlling the growth of field populations of *Hydrodictyon reticulatum* in New Zealand 229–236
D.R. Hill, T.W. Keenan, R.F. Helm, M. Potts, L.M. Crowe & J.H. Crowe / Extracellular polysaccharide of *Nostoc commune* (Cyanobacteria) inhibits fusion of membrane vesicles during desiccation 237–248
G. Zulpa de Caire, M. Storni de Cano, M.C. Zaccaro de Mulé, R.M. Palma & K. Colombo / Exopolysaccharide of *Nostoc muscorum* (Cyanobacteria) in the aggregation of soil particles 249–253
P.D.R. Van Heerden, B.L. Robertson & L. De Kock / Inhibition of *Ectocarpus siliculosus* infestations with copper chloride in tank cultures of *Gracilaria gracilis* 255–259
E. Moen & K. Østgaard / Aerobic digestion of Ca-alginate gels studied as a model system of seaweed tissue degradation 261–267
I.V. Tropin & K.S. Bourdine / Periodic changes in metal content in *Fucus distichus* thalli under polar day conditions 269–276
F. Weinberger, H.-G. Hoppe & M. Friedlander / Bacterial induction and inhibition of a fast necrotic response in *Gracilaria conferta* (Rhodophyta) 277–285
A.O. Lluisma & M.A. Ragan Expressed sequence tags (ESTs) from the marine red alga *Gracilaria gracilis* 287–293
Book reviews 295–296
Patents 297–299

Vol. 9 No. 4 1997

N.J. Cromar & H.J. Fallowfield / Effect of nutrient loading and retention time on performance of high rate algal ponds 301–309
H. Kirkman & G.A. Kendrick / Ecological significance and commercial harvesting of drifting and beach-cast macro-algae and seagrasses in Australia: a review 311–326
W.A. Stirk & J. Van Staden / Isolation and identification of cytokinins in a new commercial seaweed product made from *Fucus serratus* L. 327–330
A. Kawakubo, H. Makino, J. Ohnishi, H. Hirohara & K. Hori / The marine red alga *Eucheuma serra* J. Agardh, a high yielding source of two isolectins 331–338

R. Mole, D. Meredith & D.G. Adams / Growth and phage resistance of *Anabaena* sp. strain PCC 7120 in the presence of cyanophage AN-15 339–345
E. Moen, S. Horn & K. Østgaard / Biological degradation of *Ascophyllum nodosum* 347–357
J.C. Ogbonna, H. Masui & H. Tanaka / Sequential heterotrophic/autotrophic cultivation – An efficient method of producing *Chlorella* biomass for health food and animal feed 359–366
J. Rebello, M. Ohno, H. Ukeda, H. Kusunose & Masayoshi Sawamura / 3,6 anhydrogalactose, sulfate and methoxyl contents of commercial agarophytes from different geographical origins 367–370
E.P.Y. Tang, W.F. Vincent, D. Proulx, P. Lessard & J. de la Noüe / Polar cyanobacteria versus green algae for tertiary waste-water treatment in cool climates 371–381
Hyung-Joo Jin, Jeong Ha Kim, Chul Hyun Sohn, R.E. DeWreede, Tae-Joo Choi, G.H.N. Towers, J.B. Hudson & Yong-Ki Hong / Inhibition of *Taq* DNA polymerase by seaweed extracts from British Columbia, Canada and Korea 383–388

Vol. 9 No. 5 1997

Proceedings of the Third Asia-Pacific Conference on Algal Biotechnology,
Phuket, Thailand, 7–10 May 1997
Edited by: M.A. Borowitzka

D.W. Freshwater & M.D. Hanisak / In memoriam Kimon T. Bird (1951–1996) 389–392
M.A. Borowitzka / Microalgae for aquaculture: Opportunities and constraints 393–401
Y.-K. Lee / Commercial production of microalgae in the Asia-Pacific rim 403–411
G.S. Gerung & M. Ohno / Growth rates of *Eucheuma denticulatum* (Burman) Collins et Harvey and *Kappaphycus striatum* (Schmitz) Doty under different conditions in warm waters of Southern Japan 413–415
M. Ohno & V.D. Triet / Artificial seeding of the green seaweed *Monostroma* for cultivation 417–423
Xi Ma, Kah-Wuan Chen & Y.-K. Lee / Growth of *Chlorella* outdoors in a changing light environment 425–430
A. Belay, M. McCalmont & G.B. Kitto / Development of an immunoassay to detect insect contamination of microalgal products 431–436
Xiandi Gong & Feng Chen / Optimization of culture medium for growth of *Haematococcus pluvialis* 437–444
Xian-Ming Shi, Feng Chen, Jian-Ping Yuan & Hui Chen / Heterotrophic production of lutein by selected *Chlorella* strains 445–450
C.J. Zhu, Y.K. Lee & T.M. Chao / Effects of temperature and growth phase on lipid and biochemical composition of *Isochrysis galbana* TK1 451–457
D.H. Zhang & Y.K. Lee / Enhanced accumulation of secondary carotenoids in a mutant of the green alga, *Chlorococcum* sp. 459–463
A. Otero, D. García & J. Fábregas / Factors controlling eicosapentaenoic acid production in semicontinuous cultures of marine microalgae 465–469
Hui Shen & Y.-K. Lee / Thermotolerance induced by heat shock in *Chlorella* 471–475
J. Anggadiredja, R. Andyani, Hayati & Muawanah / Antioxidant activity of *Sargassum polycystum* (Phaeophyta) and *Laurencia obtusa* (Rhodophyta) from Seribu Islands 477–479

Vol. 9 No. 6 1997

A. Radwan, R.J. Willey & G. Davies / Effects of gel processing on the properties of humic acid isolated from the alga *Pilayella littoralis*: A humic acid aerogel 481–488
Hyung-Joo Jin, Gwi-Moon Seo, Yong Chul Cho, Eun-Kyoung Hwang, Chul Hyun Sohn & Yong-Ki Hong / Gelling agents for tissue culture of the seaweed *Hizikia fusiformis* 489–493

A.L.P. Freitas, D.I.A. Teixeira, F.H.F. Costa, W.R.L. Farias, A.S.C. Lobato, A.H. Sampaio & N.M.B. Benevides / A new survey of Brazilian marine algae for agglutinins 495–501
Y. Nakajima & R. Ueda / Improvement of photosynthesis in dense microalgal suspension by reduction of light harvesting pigments 503–510
X. Briand & P. Morand / Anaerobic digestion of *Ulva* sp. 1. Relationship between *Ulva* composition and methanisation 511–524
E.T. Ganzon-Forset / Influence of tidal location on morphology, photosynthesis and pigments of the agarophyte, *Gelidiella acerosa*, from Northern Philippines 525–532
Y. Freile-Pelegrín & D. Robledo / Influence of alkali treatment on agar from *Gracilaria cornea* from Yucatán, México 533–539
Motoharu Uchida, Kaoru Nakata & Masachika Maeda / Conversion of *Ulva* fronds to a hatchery diet for *Artemia* nauplii utilizing the degrading and attaching abilities of *Pseudoalteromonas espejiana* 541–549
E. Kebede / Response of *Spirulina platensis (= Arthrospira fusiformis)* from Lake Chitu, Ethiopia, to salinity stress from sodium salts 551–558
Makoto Kitano, Ritsuko Matsukawa & Isao Karube / Changes in eicosapentaenoic acid content of *Navicula saprophila, Rhodomonas salina* and *Nitzschia* sp. under mixotrophic conditions 559–563
H. Lechat, M. Amat, J. Mazoyer, D.J. Gallant, A. Buléon & M. Lahaye / Cell wall composition of the carrageenophyte *Kappaphycus alvarezii* (Gigartinales, Rhodophyta) partitioned by wet sieving 565–572

Author index 573–575
Volume contents 577–580
